

Sprague & Appleway ~ Street Design Character

Greatest Hits: Summary

The images on the following slides were selected by over 100 members of the community from 34 images presented at the November 30 Workshop. Images were grouped in four categories:

- City Center
- Sprague: Typical Mixed Use segments
- Appleway: Residential Segments
- Auto Row

The images were first reviewed and rated by individual participants, then fourteen small groups of 6-8 discussed the images, selected their Greatest Hits in each category, and recorded comments on each one. The intent was for participants to not simply choose their favorite images, but the ones they thought were the most appropriate for each category in the envisioned future.

Each of the Greatest Hits selected is shown with a star ★ for each group that selected it along with comments. Some groups made “bonus” or “honorable mention” selections resulting in a “+” following the stars.

Below:

highest scoring images
from each category

City Center

Greatest Hits: ★★
